

### **Some Early Season Observations:**

1. Lead officials need to get more depth off the end line. Many have their feet within 6" on the end line.
2. Trail officials "bailing out" on free throw attempts and field goal attempts, rather than "closing Down".
3. Center officials "ball watching" in stead of picking up the competitive matchups off the ball.
4. Lazy officials who don't make an effort to get into the front court as the "T" during transition, or walk into position as the "C".
5. Scorekeepers MUST wear a striped shirt during ALL GHSA sanctioned games.
6. Illegal wristbands - Read Rule 3-5-3(a). No exceptions!
7. Patience on whistles in the "paint". Assume there are multiple whistles on any call made in the lane area, and delay your hand signal until you find your partners to see if they also have a whistle. If so, yield to the "primary".
